

André Silva

Full Stack Developer

Full Stack developer with experience in building web applications and a strong interest in Web3 development. With a solid foundation in programming and software development, I'm skilled in Solidity, JavaScript, C#, TypeScript, .NET Core, NodeJS, Angular, React, and others. Critical thinking, autonomy, adaptability, problem solving are some of my strong points. Looking for opportunities in Web3 development to contribute to the world of decentralized applications and blockchain technology.
